Recommendations

Strategic Recommendations

1. Launch Customer Reactivation Campaigns

84.48% of loyal customers stopped ordering during the crisis.

Actions:

- Offer personalized win-back discounts to inactive loyal customers.
- Introduce loyalty rewards and exclusive benefits for repeat orders.
- Use targeted email, SMS, and app notifications to re-engage high-value customers.

Expected Impact: Recover lost demand and improve customer retention.

2. Improve Delivery Operations

Average delivery time increased by 52.1% and SLA compliance fell by 31.4%.

Actions:

- Optimize delivery partner allocation during peak hours.
- Improve route planning and order batching algorithms.

Expected Impact: Faster deliveries, improved SLA compliance, and reduced cancellations.

3. Address Core Customer Pain Points

Ratings dropped from 4.5 to 2.5, with complaints focused on food quality, taste, safety, and delays.
